J. L. Becker Company Installs Car Bottom Furnace

J.L. Becker, a Gasbarre Furnace Group Company, is pleased to announce the installation of two similar furnace systems for a domestic alloy manufacturer. The first, a retrofit of an existing 6' x 32' x 3' Car Bottom Furnace with a complete insulation reline, upgraded pulse fired combustion system with self-recuperative burners, and upgraded furnace controls with data logging. The second, a new 55,000 lbs. 6' x 32' x 3' Car Bottom Furnace with duplicate combustion and control systems. Operating temperatures of both furnaces range from 900-2000°F (482-1093°C) and comply with AMS-2750E specifications.

Located in Plymouth, MI, J.L. Becker designs, manufactures and services industrial atmosphere heat treating equipment, specializing in Tip Up, Car Bottom and Large Batch Furnace Systems and has been delivering custom solutions to the heat treating industry for over 40 years.
