Gasbarre Furnace Group/J.L. Becker Delivers Temper Furnace

J.L. Becker, a Gasbarre Furnace Group Company, is pleased to announce the shipment of a 36" x 72" x 36" gas-fired Box Temper Furnace to a major Tier 1 automotive supplier in Mexico. The furnace is designed to hold a 6,000 lb gross load with a maximum operating temperature of 1350°F (732°C). Process capabilities include tempering and stress relief. This furnace comes complete with a stationary load table equipped with a newly designed motor-driven roller chain and handler head assembly. The new drive system provides superior performance, more accurate positioning and ease of setup and maintenance.

Located in Plymouth, Michigan, J. L. Becker, a Gasbarre Furnace Group company, has manufactured a full line of industrial heat treating equipment for over 40 years, providing excellence in design, construction and service. The equipment includes both batch and continuous systems and specializes in Integral Quench (IQ), Tip Up, Box and Car Bottom Furnaces, as well as a full line of replacement parts and auxiliary equipment, including atmosphere generators, quench tanks and charge cars.
