MARK SALINE JOINS SINTERITE / C.I. HAYES AS GENERAL MANAGER

Gasbarre Products, Inc. is pleased to announce the hiring of Mark Saline as General Manager of Sinterite and C.I. Hayes. Mark is an accomplished manager with nearly 30 years of technical and business experience in the powder metallurgy industry. He has worked with all aspects of the manufacturing process, starting on the production floor and eventually into sales, engineering and management positions.

Mark is a Penn State graduate with two degrees: Materials Engineering and Business. Continuing education of professional development includes lean manufacturing, business training and Shainin technical courses. He is also an active member of the local Rotary Club.

Sinterite and C.I. Hayes are furnace manufacturing companies within the Gasbarre Furnace Group. Sinterite designs, manufactures and services custom continuous belt and batch furnaces for sintering, steam treating, annealing, brazing and heat treating applications. Sinterite's quality design includes alloy and ceramic muffles, powder-handling equipment, custom fabrications, and the exclusively-manufactured HyperCooler, sinter-hardening system. Sinterite is located in St. Marys, PA.

C. I. Hayes offers a full line of vacuum and atmosphere furnaces capable of temperatures to 3000°F. Belt, pusher, and walking-beam furnaces highlight our atmosphere line. Single chamber and modular furnaces, for batch and continuous production, are included in the Hayes' vacuum line. Modular vacuum furnaces feature isolated heating and quenching chambers. Endothermic, exothermic, and DA generators are also available. C.I. Hayes is located in Cranston, RI.
